

Did you know?

HERE ARE THE SIX TYPES OF PARENTAL INVOLVEMENT

There are many ways parents and the community can contribute to their child's academic success.

1. PARENTING: Means providing children with basic necessities like a safe home, adequate healthcare, and good nutrition. It also means ensuring that the home environment is conducive to learning.

2. COMMUNICATING: Parents need to be aware of and respond to school communication, and get in touch with the school when necessary. Children feel even more supported when they see their parents communicating with the school.

3. VOLUNTEERING: By volunteering for school activities, parents are showing their children how important school is in their eyes.

4. LEARNING AT HOME: Does not only mean helping with homework. Talking, encouraging, congratulating, and guiding their children are other ways parents can help them.

5. DECISION MAKING: Parents can get involved in the school's decision-making process through the parents committee. This shows children that parents and the school are partners.

6. COLLABORATION WITH THE COMMUNITY: Any community member's strengths and talents can be put to good use in school. If you are concerned about the quality of education, YOU ARE WELCOME TO GET INVOLVED!

What about you?
How are you getting involved today?
